# ICISE

International Center for Interdisciplinary  
Science and Education

Quy Nhon – Viet Nam

Regarded as an unique adventure in the scientific world, the association “Rencontres du Vietnam” official partner of UNESCO has developed a close network of international cooperation for scientific research for over 20 years.

The ICISE Center, inaugurated in August 2013, will benefit from the experience gained in organizing the Rencontres de Moriond since 1966 and the Rencontres de Blois since 1989. It aims to promote interaction, collaboration and friendship among scientists from the Eastern and Western worlds

# A MAGIC PLACE

The Center is established in Quy Nhon, an university town, located on the east coast of Vietnam, one hour north from Ho Chi Minh City (Saigon) by air, or one and a half from Hanoi.

Nestled between the mountains and the sea, in the shade of coconut trees, it occupies an exceptional location, on a 20 hectare piece of land granted by the provincial authorities, with a beautiful sandy beach.

# FACILITIES

The ICISE center consists of :

- A reception hall
- A large auditorium of 350 seats
- A conference room of 150 seats
- Two seminar rooms of 40 seats
- Offices
- Cafeteria
- Panoramic terrace

# TECHNICAL SUPPORT

- Administrative support for the organization of the conferences
- Conference secretariat during the sessions
- Internet : optical fiber up to 30 Mo.
- Connection with Vinaren Network
- Video conference (soon)
- Master control room
- Videoprojectors
- Sound system
