1 PUBLICATIONS LIST 1985 - 2016

Published in refereed journals

- [1] J. BELLISSARD, M. VITTOT: “Heisenberg’s picture and non commutative geometry of the semi classical limit in quantum mechanics”, *Annales de l’Institut Henri Poincaré*, 52, 3, (1990) 175-235. Archived on http://archive.numdam.org/article/AIHPA_1990__52_3_175_0.pdf & <http://www.cpt.univ-mrs.fr/~vittot/Vittot6-AIHP.pdf>
- [2] P. DUCLOS, P. STOVICEK, M. VITTOT: “Perturbation of an eigen-value from a dense point spectrum: an example”. *J. Phys. A: Math. Gen.* 30, (1997) 7167-7185. Archived on arxiv/quant-ph/9702052 & <http://www.cpt.univ-mrs.fr/~vittot/VittotA-JPhysA.pdf>
- [3] P. DUCLOS, P. STOVICEK, M. VITTOT: “Perturbation of an eigen-value from a dense point spectrum: a general Floquet Hamiltonian”. *Annales de l’Institut Henri Poincaré*, 71, 3, (1999) p 241. Archived on arxiv/physics/9712006
- [4] T. BENZEKRI, R. LIMA, M. VITTOT: “Non Permanent Form Solutions in the Hamiltonian Formulation of Surface Water Waves”, *European Journal of Mechanics B: Fluids*, 19, (2000) 379-390. Archived on arxiv/nlin/0609053
- [5] P. DUCLOS, O. LEV, P. STOVICEK, M. VITTOT: “Weakly regular Floquet Hamiltonians with pure point spectrum”, *Reviews in Mathematical Physics*, 14 6 (2002), p 1-38. Archived on arxiv/math-ph/0103041 & <http://www.cpt.univ-mrs.fr/~vittot/Vittot1-RevMathPhy.pdf>
- [6] M. VITTOT: “Perturbation Theory and Control in Classical or Quantum Mechanics by an Inversion Formula”, *J. Phys. A: Math. Gen.* 37, (2004) p 6337. Archived on arxiv/math-ph/0303051 & <http://www.cpt.univ-mrs.fr/~vittot/Vittot2-JPhysA.pdf>

- [7] G. CIRAULO, F. BRIOLLE, C. CHANDRE, E. FLORIANI, R. LIMA, M. VITTOT, M. PETTINI, Ch. FIGARELLA, Ph. GHENDRIH: “Control of Hamiltonian chaos as a possible tool to control anomalous transport in fusion plasmas”, *Phys. Rev. E*, **69**, 056213 (2004). Archived on [arxiv/nlin/0312037](http://arxiv.org/abs/nlin/0312037) & <http://www.cpt.univ-mrs.fr/~vittot/VittotB-PhysRevE.pdf>
- [8] G. CIRAULO, C. CHANDRE, R. LIMA, M. VITTOT, M. PETTINI, Ch. FIGARELLA, Ph. GHENDRIH: “Controlling chaotic transport in a Hamiltonian model of interest to magnetized plasmas”, *J. Phys. A: Math. Gen.* **37**, 11, (2004) p 3589-3597. Archived on [arxiv/nlin/0402048](http://arxiv.org/abs/nlin/0402048) & <http://hal.ccsd.cnrs.fr/ccsd-00001193>.
- [9] G. CIRAULO, C. CHANDRE, R. LIMA, M. VITTOT, M. PETTINI: “Control of chaos in Hamiltonian systems”, *Celestial Mechanics and Dynamical Astronomy* **90**, (2004) p 3-12. Archived on [arxiv/nlin/0311009](http://arxiv.org/abs/nlin/0311009).
- [10] T. BENZEKRI, M. VITTOT, R. LIMA, C. CHANDRE: “A Hamiltonian system for interacting Benjamin-Feir resonances”, *J. Phys. A: Math. Gen.* **38**, 24 (2005) p 5381-5403. Archived on [arxiv/nlin/0407060](http://arxiv.org/abs/nlin/0407060) & <http://hal.ccsd.cnrs.fr/ccsd-00002312>.
- [11] C. CHANDRE, M. VITTOT, Y. ELSKENS, G. CIRAULO, M. PETTINI: “Controlling chaos in area-preserving maps”, *Physica D* **208**, (2005) p 131-146. Archived on [arxiv/nlin/0405008](http://arxiv.org/abs/nlin/0405008) & <http://hal.ccsd.cnrs.fr/ccsd-00001530> & <http://www.cpt.univ-mrs.fr/~vittot/VittotC-PhysicaD.pdf>
- [12] M. VITTOT, C. CHANDRE, G. CIRAULO, R. LIMA: “Localised control for non-resonant Hamiltonian systems”, *Nonlinearity* **18**, (2005) 423-440. Archived on [arxiv/nlin/0405056](http://arxiv.org/abs/nlin/0405056) & <http://hal.ccsd.cnrs.fr/ccsd-00001608> & <http://www.cpt.univ-mrs.fr/~vittot/VittotD-NonLinearity.pdf>
- [13] C. CHANDRE, G. CIRAULO, F. DOVEIL, R. LIMA, A. MACOR, M. VITTOT: “Channeling chaos by building barriers”, *Phys. Rev. Letters* **94**, 074101 (2005). Archived on [arxiv/nlin/0407048](http://arxiv.org/abs/nlin/0407048) & <http://hal.ccsd.cnrs.fr/ccsd-00002248> & <http://www.cpt.univ-mrs.fr/~vittot/Vittot3-PRL.pdf>
- [14] G. CIRAULO, C. CHANDRE, R. LIMA, M. VITTOT, M. PETTINI, Ph. GHENDRIH: “Tailoring Phase Space: A Way to Control Hamiltonian Transport”, *Europhysics Letters* **69**, 6 (2005) p 879-885. Archived on [arxiv/nlin/0405010](http://arxiv.org/abs/nlin/0405010) & <http://hal.ccsd.cnrs.fr/ccsd-00001540>.
- [15] C. CHANDRE, M. VITTOT, G. CIRAULO, Ph. GHENDRIH, R. LIMA: “Control of stochasticity in magnetic field lines”, *Nuclear Fusion* **46** (2005) p 33-45. Archived on [arxiv/nlin/0504033](http://arxiv.org/abs/nlin/0504033) & <http://www.cpt.univ-mrs.fr/~vittot/Vittot4-NuclearFusion.pdf>
- [16] T. BENZEKRI, C. CHANDRE, X. LEONCINI, R. LIMA, M. VITTOT: “Chaotic advection and targeted mixing”, *Phys. Rev. Letters* **96**, 124503 (2006). Archived on [arxiv/nlin/0508032](http://arxiv.org/abs/nlin/0508032) & <http://hal.ccsd.cnrs.fr/ccsd-00008127> & <http://www.cpt.univ-mrs.fr/~vittot/Vittot5-PRL.pdf>

- [17] R. BACHELARD, A. ANTONIAZZI, C. CHANDRE, D. FANELLI, M. VITTOT: “Enhancement of particle trapping in the wave-particle interaction”, *Communications in Nonlinear Science and Numerical Simulation* (2006) p660-665. DOI: 10.1016/j.cnsns.2006.05.008 Archived on arxiv/nlin/0701018
- [18] G. CIRAOLO, C. CHANDRE, R. LIMA, M. PETTINI, M. VITTOT: “Control of the chaotic velocity dispersion of a cold electron beam interacting with electrostatic waves”. *Nuclear Instruments and Methods in Physics Research A* 561 (2006) 244 Archived on arxiv/nlin/0607073
- [19] O.OURRAD, G. EROCHENKOVA, R. LIMA, M. VITTOT: “Mean Value and Fluctuations in a Model of Diffusion in Porous Media”, *Chaos* 16, 3, 033128 (2006)
- [20] O.OURRAD, G. EROCHENKOVA, R. LIMA, M. VITTOT: “Anomalous Transport Fluctuations in a Model of Irregular Media”, *Chaos* 16, 4, 043101 (2006)
- [21] A. MACOR, F. DOVEIL, C. CHANDRE, G. CIRAOLO, R. LIMA, M. VITTOT: “Channeling chaotic transport in a wave-particle experiment: building barriers in phase space”. *European Physical Journal D* 43 (2007) p519-530. DOI: 10.1140/epjd/e2006-00260-6. Archived on arxiv/physics/0608119
- [22] G. CIRAOLO, Ph. GHENDRIH, Y. SARAZIN, C. CHANDRE, R. LIMA, M. VITTOT, M. PETTINI: “Control of test particle transport in a turbulent electrostatic model of the Scrape-Off-Layer”, *Journal of Nuclear Materials* 363-365 (2007) p 550-554. Archived on arxiv/0710.5626
- [23] R. BACHELARD, A. ANTONIAZZI, C. CHANDRE, D. FANELLI, X. LEONCINI, M. VITTOT: “Stabilizing the intensity of a wave amplified by a beam of particles”, *European Physical Journal D*, 42 (2007) p125-132. DOI: 10.1140/epjd/e2006-00276-x Archived on arxiv/nlin/0609030
- [24] R. BACHELARD, T. BENZEKRI, C. CHANDRE, X. LEONCINI, M. VITTOT: “Targeted mixing in an array of alternating vortices”. *Phys. Rev. E* 76 (2007) 046217, Archived on arxiv/0707.1073 ou hal-00160746.
- [25] R. BACHELARD, C. CHANDRE, D. FANELLI, X. LEONCINI, M. VITTOT: “Stabilizing the intensity for a Hamiltonian model of the FEL”, *Nuclear Instruments and Methods in Physics Research A*, 593 (2008) p 94. Archived on arxiv/0807.0286.
- [26] P. DUCLOS, E. SOCCORSI, P. STOVICEK, M. VITTOT: “On the stability of periodically time-dependent quantum systems”, *Reviews in Mathematical Physics*, 20, 6 (2008). Archived on arxiv/0710.0768.
- [27] R. BACHELARD, C. CHANDRE, M. VITTOT: “Hamiltonian description of a self-consistent interaction between charged particles and electromagnetic waves”. *Physical Review E* 78, 1 (2008). Archived on arxiv/0802.2602.

- [28] N. TRONKO, M. VITTOT, C. CHANDRE, Ph. GHENDRIH, G. CIRAOLLO: “Barriers for the reduction of transport due to the ExB drift in magnetized plasmas”. *J. Phys. A: Math. Gen.* **42** (2009) 085501. Archived on arxiv/0901.2848
- [29] C. CHANDRE, G. CIRAOLLO, M. VITTOT: “Reduction of the chaotic transport of impurities in turbulent magnetized plasmas”. Chapitre du livre “Recent progress in controlling chaos”, Miguel Sanjuan & Celso Grebogi Eds., World Scientific Publishing, (2010). ISBN: 978-981-4291-69-9. Archived on arxiv/0910.2633
- [30] J. BOREUX, T. CARLETTI, CH. SKOKOS, Y. PAPAPHILIPPOU, M. VITTOT: “Efficient control of accelerator maps”. “International Journal of Bifurcation and Chaos” (IJBC), **22**, 9 (2011). DOI: 10.1142/S0218127412502197 Archived on arxiv/1103.5631.
- [31] O. IZACARD, N. TRONKO, C. CHANDRE, G. CIRAOLLO, M. VITTOT, Ph. GHENDRIH: “Transport barrier for the radial diffusion due to the ExB drift motion of guiding centers in cylindrical confinement geometry”, *Plasma Phys. Control. Fusion* **53**, 12 (2011) 125008. Archived on arxiv/1012.1200.
- [32] J. BOREUX, T. CARLETTI, CH. SKOKOS, M. VITTOT: “Hamiltonian control used to improve the beam stability in particle accelerator models”. *Communications in Nonlinear Science and Numerical Simulation* (2011). DOI: 10.1016/j.cnsns.2011.09.037
- [33] PH. MORRISON, M. VITTOT, L. DE GUILLEBON: “Lifting particle coordinate changes of magnetic moment type to Vlasov-Maxwell Hamiltonian dynamics”, *Physics of Plasmas*, **20**, 3 (2013). DOI: 10.1063/1.4794828. Archived on arxiv/1212.3007.
- [34] L. DE GUILLEBON, M. VITTOT: “A gyro-gauge independent minimal guiding-center reduction by Lie-transforming the velocity vector field”. *Physics of Plasmas*, **20**, 082505 (2013). Archived on arxiv/1211.5792.
- [35] L. DE GUILLEBON, M. VITTOT: “Gyro-gauge independent formulation of the guiding-center reduction to arbitrary order in the Larmor radius”. *Plasma Physics and Controlled Fusion* **55**, 105001 (2013). Archived on arxiv/1304.3727.
- [36] L. DE GUILLEBON, M. VITTOT: “On an intrinsic approach of the guiding-center anholonomy and gyro-gauge-arbitrariness”. *Physics of Plasmas*, **20**, 112509 (2013). Archived on arxiv/1304.4563
- [37] B. CAMBON, X. LEONCINI, M. VITTOT, R. DUMONT, X. GARBET: “Chaotic motion of charged particles in toroidal magnetic configurations”, *Chaos* (2014), **24** (3), pp.033101. DOI: 10.1063/1.4885103. Archived on arxiv/1402.2625 & hal-00945145.
- [38] S. OGAWA, B. CAMBON, X. LEONCINI, M. VITTOT, D. DEL CASTILLO-NEGRETE, G. DIF-PRADALIER, X. GARBET: “Full particle orbit effects in regular and stochastic magnetic fields”, *Phys. Plasmas* **23**, 072506 (2016), DOI: 10.1063/1.4958653. Archived on arxiv/1604.05112

- [39] A. J. BRIZARD, P. J. MORRISON, J. W. BURBY, L. DE GUILLEBON, M. VITTOT: “Lifting of the Vlasov-Maxwell Bracket by Lie-transform Method”, *J. Plasma Phys.* (2016, to appear). Archived on arxiv/1606.06652

Conferences Proceedings:

- [40] M. VITTOT: “A simple and compact presentation of Birkhoff series”, *Comptes Rendus de la Conférence “Nonlinear evolution and chaotic phenomena”* (Noto, Juin 1987), G. Gallavotti & P.F. Zweifel Eds., Plenum Press, New York (1988) 173-183. Archived on <http://ccdb4fs.kek.jp/cgi-bin/img/allpdf?198801041>
- [41] M. VITTOT: “Birkhoff expansions in Hamiltonian mechanics: a simplification of the combinatorics”, *Comptes Rendus de la Conférence “Non-Linear Dynamics”* (Bologne, 1988), G. Turchetti Ed., World Scientific, Singapore (1989) 276-286.
- [42] P. DUCLOS, O. LEV, P. STOVICEK, M. VITTOT: “Progressive diagonalization and applications”, *Comptes Rendus de la Conférence “Operator Algebras & Mathematical Physics”*, Constanța (Roumanie, 2001), R. Purice Ed., Theta Foundation, Bucarest (2003). Archived on arxiv/math-ph/0405014.
- [43] P. DUCLOS, E. SOCCORSI, P. STOVICEK, M. VITTOT: “Dynamical Localization in Periodically Driven Quantum Systems”, *Comptes Rendus de la Conférence “Operator Algebras & Mathematical Physics”*, Sinaia (Roumanie, 2003), R. Purice Ed., Theta Foundation, Bucarest (2004).
- [44] M. VITTOT: “A Lie Algebra point of view on global Perturbation Theory and Control in Classical or Quantum Mechanics”, *Comptes Rendus de la Conférence “Operator Algebras & Mathematical Physics”*, Sinaia (Roumanie, 2003), R. Purice Ed., Theta Foundation, Bucarest (2004).
- [45] G. CIRAULO, C. CHANDRE, R. LIMA, M. VITTOT: “Contrôle du chaos Hamiltonien”, *Comptes Rendus de la 7ème Rencontre du Non-Linéaire*, édité par Y. Pomeau et R. Ribotta (Non Linéaire Publications, Orsay, 2004).
- [46] G. CIRAULO, C. CHANDRE, R. LIMA, M. PETTINI, M. VITTOT, Ph. GHENDRIH: “Control of chaotic transport in Hamiltonian systems” *Comptes Rendus de la Conférence “20th IAEA Fusion Energy Conference”*, Vilamoura (Portugal, 2004). IAEA-CN-116, PD/P1-1 (2005).
- [47] C. CHANDRE, G. CIRAULO, R. LIMA, M. VITTOT: “Local control of Hamiltonian chaos”, *Journal of Physics: Conference Series*, 7, 48 (2005). Archived on arxiv/nlin/0412044.
- [48] G. CIRAULO, C. CHANDRE, R. LIMA, M. VITTOT, Ph. GHENDRIH, M. PETTINI: “Controlling chaotic transport in Hamiltonian systems”, *Comptes Rendus de la Conférence “Quantum Field Theory and Hamiltonian Systems”*, Calimanesti (Roumanie)

2004. "Physics AUC" (Annals of the University of Craiova), 15 (2005) p38-44. Archived on arxiv/nlin/0304040.
- [49] T. BENZEKRI, C. CHANDRE, R. LIMA, M. VITTOT: "Contrôle de la diffusion chaotique en hydrodynamique". Comptes-rendus de la 8ème Rencontre du Non-Linéaire, IHP, Paris (9 Mars 2005) p19-24. Archived on <http://hal.ccsd.cnrs.fr/ccsd-00103580>
- [50] M. VITTOT: "Perturbation Theory and Control in Classical or Quantum Mechanics by a Closed Formula". Comptes Rendus de la Conférence "Physics and Control 2005" (St. Petersburg).
- [51] A. ANTONIAZZI , R. BACHELARD, C. CHANDRE, D. FANELLI , M. VITTOT: "Control of Chaotic Diffusion in a Single-Pass Free Electron Laser". Comptes Rendus de la Conférence "FEL2005".
- [52] T. BENZEKRI, C. CHANDRE, X. LEONCINI, R. LIMA, M. VITTOT: "Mixing enhancement and transport reduction in chaotic advection". 5e Colloque Chaos Temporel et Chaos Spatio-Temporel, France (12 Décembre 2005) p95-99. Archived on <http://hal.ccsd.cnrs.fr/ccsd-00103149>
- [53] T. BENZEKRI, C. CHANDRE, X. LEONCINI, R. LIMA, M. VITTOT, N. AUBRY, A. GOULLET, "Control of the chaotic advection", Comptes Rendus de la Conférence "Chaos06: First IFAC (International Federation of Automatic Control) Conference on Analysis and Control of Chaotic Systems", (Reims, Juin 2006) p 219-224. Archived on arxiv/nlin/0610002 et sur <http://www.univ-reims.fr/chaos06> ou <http://www.ifac-papersonline.net/Detailed/29955.html>
- [54] R. BACHELARD, A. ANTONIAZZI, C. CHANDRE, D. FANELLI, M. VITTOT: "Enhancement of particle trapping in the Free Electron Laser". Comptes Rendus de la Conférence "Chaos06: First IFAC (International Federation of Automatic Control) Conference on Analysis and Control of Chaotic Systems, Reims 2006". Archived on <http://www.ifac-papersonline.net/Detailed/29931.html>
- [55] G. CIRAOLO, Ph. GHENDRIH, G. DARMET, Y. SARAZIN, C. CHANDRE, X. LEONCINI, R. LIMA, M. VITTOT, M. PETTINI, E. SERRE: "Control of Turbulent Transport in the Scrape Off Layer", Comptes Rendus de la Conférence "TTF", Marseille, Septembre 2006. Archived on: <http://www-fusion-magnetique.cea.fr/ttf2006/prog/drafts/046.pdf>
- [56] R. BACHELARD, C. CHANDRE, X. LEONCINI, M. VITTOT, A. ANTONIAZZI, D. FANELLI: "Control of the Intensity of a Wave Interacting with Charged Particles". Comptes Rendus de la Conférence "FEL2006". Archived on <http://www.bessy.de/fel2006/proceedings/PAPERS/MOPPH022.PDF>
- [57] C. CHANDRE, M. VITTOT, G. CIRAOLO: "Local control of area-preserving maps". Comptes Rendus de la Conférence "Chaos, Complexity and Transport: Theory and Applications", Marseille, Juin 2007. Archived on arxiv/0809.0239.

- [58] N. TRONKO, M. VITTOT: “Localised control theory for hamiltonian systems and its application to the chaotic transport of test particules in plasmas”. Comptes Rendus du “Joint Varenna - Lausanne International Workshop: Theory of Fusion Plasmas”, Varenna (Italie) (Août 2008), edited by X. Garbet.
- [59] N. TRONKO, M. VITTOT: “Creation of a Transport Barrier for the $E \times B$ drift in magnetized plasmas”. Comptes Rendus de “International Conference on Fusion BFR (Belgique - France - Roumanie)”, à Craiova (Roumanie), Octobre 2008. “Physics AUC” (Annals of the University of Craiova), (2009).
- [60] J. BOREUX, T. CARLETTI, CH. SKOKOS, M. VITTOT: “Improve Beam Stability in Particle Accelerator Models by using Hamiltonian Control”. Comptes Rendus de “Nonlinear Dynamics and Complexity: Theory, Methods and Applications”, Thessaloniki, Grèce 12 - 16 July 2010, Archived on arxiv/1007.1565.
